SUMMARY

1+ of real infrastructure work: automating Linux and Windows servers with **Ansible**, securing deployments with **Sealed Secrets**, and monitoring systems using **Prometheus** and **Grafana**. Works independently, documents clearly, and keeps teams informed. Fluent in English; learning German.

EXPERIENCE

Cloud / Infrastructure Engineer Intern

Apr. 2024 – Apr. 2025

Shaats Pvt. Ltd. (Remote)

Aurangabad, India

- Used **Ansible playbooks** to set up and manage 18+ Linux (RHEL/Ubuntu) and Windows VMs consistently, reduced manual setup time by ~60% and stopped config errors between environments.
- Set up **Prometheus + Grafana** with Alertmanager so the team could see what was happening in real time, kept uptime at 99.9%.
- Found 30% of cloud resources sitting unused, cleaned them up and resized servers, **cut monthly costs by 25%** without breaking anything.

PROJECTS

DevSecOps CI/CD Pipeline with Secrets & Config Automation | [github](#)

Jul. 2025

- Built a pipeline that automatically runs 10+ steps (build, security scan, deploy) using GitHub Actions and ArgoCD; kept infrastructure consistent via **GitOps**, cutting drift by 80%.
- Used **Sealed Secrets** to keep credentials safe across all environments; stopped 95% of broken or risky builds from reaching production.
- Set up alerts via Slack and email for any pipeline failure or config drift, reduced time to respond by **60%**.

Cloud-Native Infrastructure Platform with GitOps & Monitoring | [github](#)

Jul. 2025

- Set up the full infrastructure (EKS, VPC, RDS, S3) using **Terraform**, everything in code, nothing done by hand; connected ArgoCD + GitHub Actions to deploy automatically, cutting errors by **70%**.
- Added **Prometheus + Grafana** monitoring; kept all services running at 99.9% uptime with automatic rollback if something broke.

EDUCATION

Deggendorf Institute of Technology (TH Deggendorf)

Mar. 2026 – present

M.Sc. High Performance Computing and Quantum Computing | 1st Semester

Deggendorf, Germany

MGM University

2021 – 2025

B.Tech in Information Technology | CGPA: 7.0

Aurangabad, India

SKILLS

Automation & Config Mgmt : Ansible, Bash Scripting, Python, Terraform, Jenkins, GitHub Actions

Systems & OS : Linux (RHEL, CentOS, Ubuntu, Debian), Windows Server, VM Administration

Secrets & Security : HashiCorp Vault, Sealed Secrets, GitLeaks, Semgrep, OWASP ZAP (SAST/DAST)

Monitoring & Logging : Prometheus, Grafana, Alertmanager, Centralized Log Management

Containers & CI/CD : Docker, Kubernetes, Helm, ArgoCD, GitOps, Git, GitHub, GitLab

Languages : English (fluent), German (basic, actively improving)

CERTIFICATIONS

OCI 2025 Certified Architect Associate : Oracle — Issued Oct 2025, Expires Oct 2027

OCI 2025 Certified Generative AI Professional : Oracle — Issued Oct 2025

Google Cloud Study Jam 2023 : 9 hands-on labs — infrastructure, networking & GenAI on GCP

AWS Cloud Solutions Architect Associate : In progress
